The universal mailer design allows for between 1 to 12 Vinyl Records, with handy creases to allow for folding in the right place.

"The Wrapro Vinyl Record Mailer is made from High Quality corrugated cardboard, and designed to give superior protection to vinyl records in transit"

The universal mailer design allows for between 1 to 12 Vinyl Records, with handy creases to allow for folding in the right place.

"It's Tough"

With other record mailers, a pack dropped in the post can often damage the sleeve or record within the pack due to no space to cushion the impact. With it's extra strong buffer zones, the Wrapro Record Mailer protects vinyl records during such impacts, a feature most other record mailers do not have. This feature alone can save a lot of damage to some of the most precious of records being traded in todays marketplace.

"It's Versatile"

The ideal choice for the busy online or mail order music retailer who may often send more than 1 vinyl record to a customer at a time & needs a tough and reliable packaging mailer. The multi-depth feature of the mailer enables a packer to load anything from 1 to approximately 12 records. The ease of the design means that it adapts to contents inside without compromising stability or strength.

"It's Easy To Use"

Every Wrapro mailer has an easy self-seal strip, and convenient tear device for fast and secure filling and easy opening. The sealing strip has been specifically formulated for mailing solutions and is also used by some of the world major online retailers. The convenient tear open strip enables the end recipient to open the pack quickly and effortlessly, no need for knives or scissors which may damage valuable records.

"It's Just The Best"

Really? - Well why don't you try it for yourself? Simply contact us today via our online form, leaving your full name and business address and we'll arrange to get a sample to you.
